# Assignment 4

**Aim:**

Design a user-friendly AI storytelling app UI that helps users create, customize, and share interactive stories using AI-generated content.

**Procedure:**

1. **Research**: Identify user needs for storytelling, analyze competitors, and explore features like AI story generation, customization, and sharing.
2. **Wireframe**: Create basic layouts and user flows for story creation, editing, and viewing.
3. **Design in Figma**:
    - Set up artboards for various devices (mobile, tablet, desktop).
    - Design screens: Welcome, Story Creation, AI Suggestions, Edit, Preview, and Share.
    - Develop a style guide: Colors, typography, icons, and UI components.
    - Prototype with interactive links to demonstrate user flow and interactions.
4. **Feedback**: Share designs for user feedback, iterate based on input to enhance usability and functionality.

**Result:**

Deliver high-fidelity mockups, an interactive prototype, and a comprehensive style guide, all ready for development to create an engaging AI-powered storytelling app.
