

Redesign canteen menu to increase the ease of use and ease of functionality

AIM:

To redesign canteen menu to increase the ease of use and ease of functionality

PROCEDURE:

1. Set Up Your Workspace

1. **Open Figma:** Sign in to your Figma account.
2. **Create New File:** Click on "New File" from the dashboard.

2. Design the Layout

1. **Create a Frame:** Use the Frame tool (F) to define the size of your menu (e.g., A4, US Letter).
2. **Add Sections:** Divide the frame into sections such as Appetizers, Main Courses, Desserts, Beverages.

3. Add Text and Images

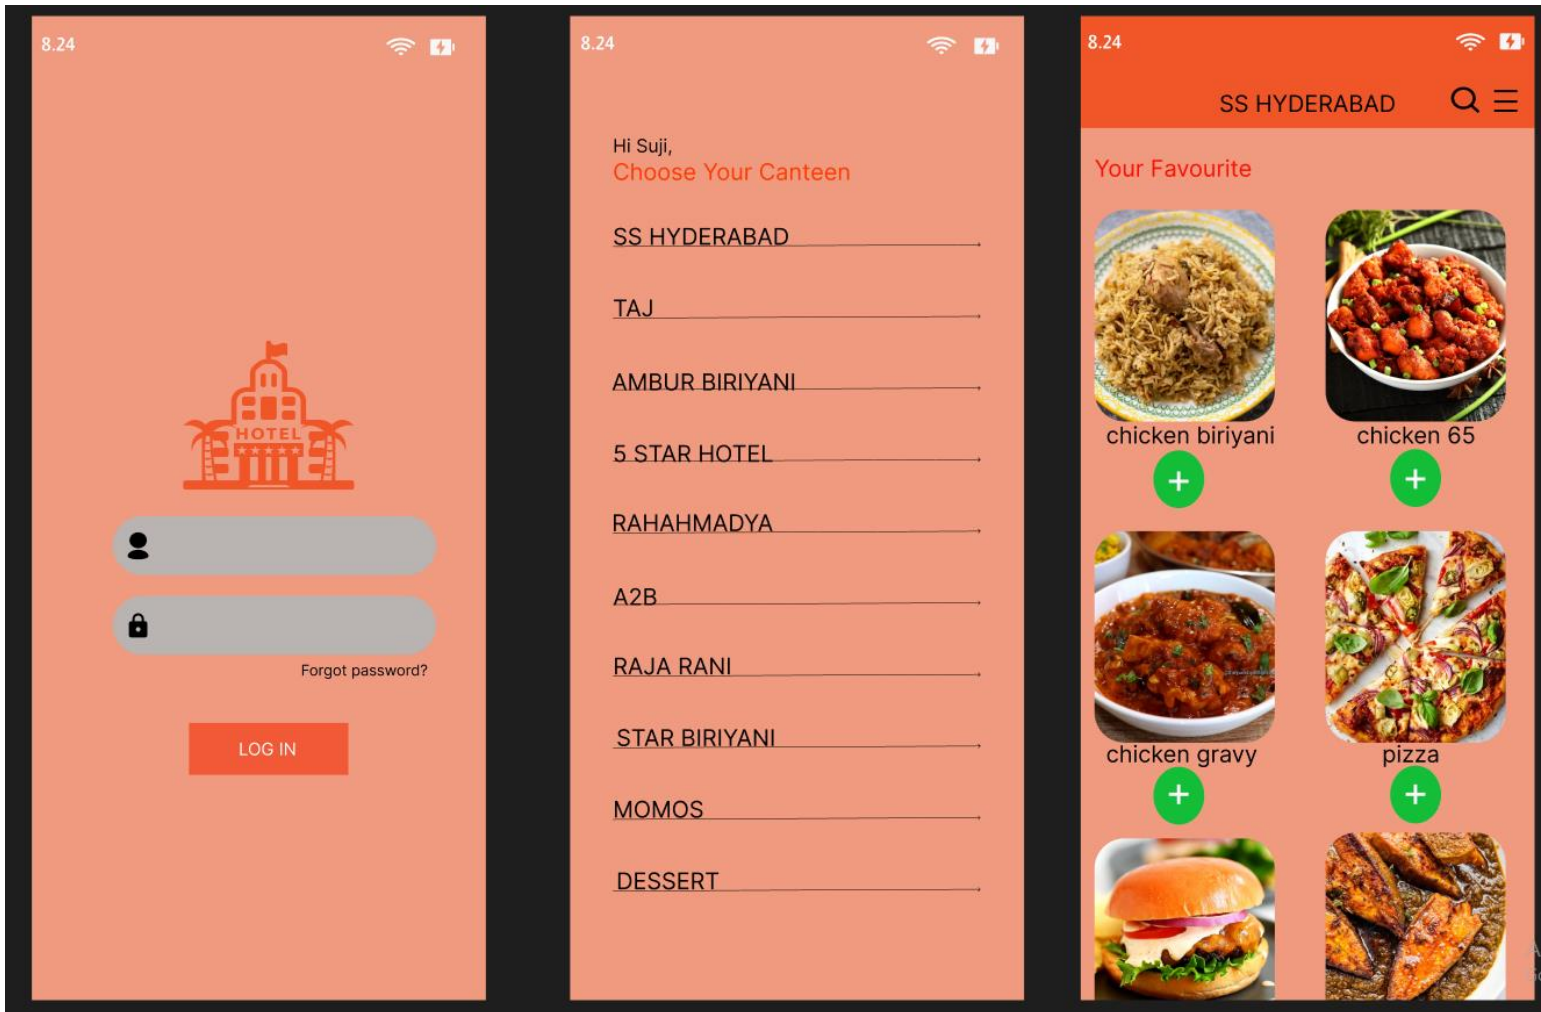

1. **Insert Text:** Use the Text tool (T) to add headings and item descriptions. Customize font, size, and style.
2. **Add Images:** Drag and drop images of menu items into appropriate sections. Resize and arrange them.

4. Style and Customize

1. **Colors and Backgrounds:** Apply colors to sections and background. Use the Fill option in the right panel.
2. **Typography:** Ensure consistent font style for headings and body text. Adjust line spacing and alignment.

5. Finalize and Export

1. **Review Design:** Check for alignment, consistency, and readability.
2. **Export:** Select the frame and export it as a PDF or image. Go to the "Export" section in the right panel and choose your preferred format.

RESULT:

Thus, the Redesign canteen menu to increase the ease of use and ease of functionality is successfully done.
